NEW YORK DAILY NEWS REPORTS—

Ike Takes Top-Secret Papers To Avoid Kennedy Tampering

NEW YORK, Feb. 17 (UPI) — Former President Eisenhower has in his personal custody the long-secret papers of various World War II conferences of heads of state, the New York Daily News reported yesterday.

Eisenhower took the papers with him when he left the White House as insurance against tampering with or suppression of them by the Kennedy administration, news correspondent Ted Lewis reported from Washington in a copyright dispatch.

In Palm Springs, Calif., Eisenhower said: "I have no records here and no recollection of anything they are talking about."

The News said Eisenhower has proofsheets of the 1943 Cairo-Tehran and the 1945 Potsdam conferences which are classified secret. The documents had been scheduled to be released by the State Department later this year under arrangements made by Eisenhower while he still was President, the newspaper said.

Eisenhower intends to see that his own unexpurgated file of the documents reaches the American people, the News said, unless they are released as it, or if there is an undue delay in releasing them.

Explosive Information

The News said the documents contain far more explosive information about U. S. concessions to the Soviet Union than was revealed when the papers on the Roosevelt-Churchill-Stalin Yalta conference were made public six years ago.

It has been charged that concessions made by President Roosevelt at the Cairo-Tehran talks cleared the way for postwar Communist grabs of Eastern Europe and mainland China, the News said.

The papers on the Potsdam meeting, which was held after Roosevelt's death, are considered relatively unimportant compared with the Cairo-Tehran documents, it said.

President Truman met with Soviet Premier Josef Stalin after Germany surrendered before the first atom bomb was dropped on Japan and was in the position of having to accept whatever deals had been made previously, the News said.

The newspaper said Eisenhower's decision to take personal charge of the documents was reached at a White House conference with Republican congressional leaders shortly before Jan. 20.

The Congressmen included Senate GOP Leader Everett Dirksen, Ill., and Styles Bridges (N.H.), chairman of the Senate Republican Policy Committee, the News said.

Avalanche Kills 11

TOKYO, Feb. 17 (AP)—A sudden avalanche triggered by heavy snows swept down a mountainside in central Japan last night smashing four homes and crushing 11 of its occupants to death. Another ten were dug out alive by rescue squads.

Kennedy-Von Brentano Talk

(Continued from Page 1.)

wanted prosperous W. Germany to take a bigger share of the cost of helping other nations.

Joint Communique

A joint communique said Kennedy heard with satisfaction that W. Germany is prepared to carry on its aid program for under-developed countries "in future years."

A German Foreign Office spokesman explained that no specific figures had been discussed. But he said Brentano made it clear to the president that the annual German contribution would be "in the area" of $1,000,000,000.

Prior to today's meeting, the W. Germans had agreed to a one-year program for 1961 costing about $1 billion. Von Brentano told the president that his government was now prepared to carry on its foreign aid program on a continuing basis.

A spokesman for the German foreign minister said the financial level of future German expenditures to help underdeveloped countries would be roughly the same as 1961, dependent on needs of the recipient countries and the capacity of the W. German government.

Other Points

The joint communique also:

— Confirmed "the continuing importance of the goal of German reunification based upo nthe principle of self-determination and of the preservation of the freedom of the people of W. Berlin."

— Stated that "both governments agreed that the persistent imbalance in the international payments situation called for concerted and vigorous action on the part of the free world."

— Asserted that the U.S. and Germany in providing development assistance "will act in concert with their common allies."

— Said "unless and until this imbalance is substantially corrected it will continue to impede the free world's efforts to provide for the common defense and supply the resources needed by the less-developed countries to meet their legitimate aspirations."

With this principle as a basis, both governments agreed to carry forward discussions beginning immediately in Washington on a series of "appropriate measures" by which the two nations and their allies can coordinate their foreign aid activities.

SOVIET MEMO

BONN, Feb. 17 (AP)—Soviet Ambassador Andrei Smirnov tonight handed Chancellor Konrad Adenauer a memorandum stressing the necessity for concluding a peace treaty with Germany.

A W. German government announcement said the memorandum also dealt with the Soviet position regarding the "basic questions of German-Soviet relations."

Smirnov also gave Adenauer a personal letter from Premier Nikita S. Khrushchev which answers the chancellor's letter of last October concerning repatriation of Germans from the Soviet Union, the government said in a press statement.

W. German and Soviet officials refused to divulge details of Khrushchev's letter replying to Adenauer's contention that thousands of Germans still are held in the Soviet Union as an aftermath of World War II.

OBITUARIES

Paul Wooton, 79, Dies In Washington

WASHINGTON, Feb. 17 (UPI) — Paul Wooton, 79, veteran of 47 years of news coverage on both sides of the Atlantic, died yesterday on the way to report a government hearing.

Wooton was known on a first-name basis by every President since Warren G. Harding. He apparently succumbed to a heart attack in a taxi.

President Kennedy expressed his regrets at the passing of "a distinguished journalist and a man who contributed much to his profession and his country."

Wooton was known and honored in this country and Europe for his stories in the New Orleans Times-Picayune and a number of business publications since 1914.

He received the Gold Cross from King Paul of Greece, the Order of St. Olav from King Haakon of Norway and the Star of Ethiopia from Emperor Haile Selassie.

Queen Elizabeth made him an officer in the Order of the British Empire for a favor he did for her when she visited Washington as Princess in 1951. He was past president of the National Club, the Overseas Writers and the Gridiron Club.

Gen. Sir Bernard Paget

PETERSFIELD, England, Feb. 17 (AP) — Gen. Sir Bernard Paget, 73, — the man who established realistic battle schools for the training of British troops in World War II — died at his home today.

Missile Crane Plunge Kills Six

ROSWELL, N. M., Feb. 17 (UPI)— A 35-ton crane plunged into a pit some 17 stories deep at an Atlas ICBM site yesterday and carried construction workers and equipment with it to the bottom.

Six men were killed and 14 others were injured. Two of the injured were not expected to live.

The fuel tank on the huge machine exploded as it hit the second of ten iron-mesh levels in the deep hole. Flames trapped some of the workers on the bottom for about two hours before they could be rescued.

Tomorrow's GI Has Power Brakes, Steering

WASHINGTON, Feb. 17 (AP) — The soldier of the distant future will be a human tank equipped with power steering and power brakes, the U.S. Defense Department said.

Called the "servo-soldier," he will wear a special suit which will have its own engine enabling him to run faster, stop quicker and lift bigger loads than ordinary mortals. What's more, he will be immune to germ warfare, poison gas and the heat radiation from nuclear blasts.

'Believed Feasible'

"The development of this mechanism is believed feasible," the Defense Department said in listing inventions wanted by the armed forces and other government agencies.

These lists are published periodically by the U.S. National Inventors Council, which is the official link between civilian inventors and the government. Other wanted inventions included:

● Small arms ammunition which is smokeless, flashless and noiseless.

● A device for driving stakes 12 inches into frozen earth in one minute.

● Plastic cartridge cases stronger than metal.

● A platform equipped with search radar that can hover at altitudes of 30,000 to 100,000 feet.

The Defense Department report conceded that a few problems must be ironed out before the servo-soldier becomes a reality. Ways must be found to give his mechanical suit plenty of agility, to link the suit's mechanism with the soldier's movements and to develop a light weight, quiet power source with an output of four horsepower.

A servo-soldier, so called because he would be aided by a servo-motor, or auxiliary power plant, would wear a mechanical type suit "with a self-contained power source, automatically controlled and guided by the natural responses and senses of the wearer."

Belgian Gov't

(Continued from Page 1.)

munist.

If elections are called both Houses will be at issue in entirety.

Theoretically Possible

It still was theoretically possible that Eyskens might try to go it alone in government without the Liberals, or that the quarrel might be patched up.

But political observers rated both these possibilities as highly unlikely, not least because the Social Christians themselves have been advocating an early election.

What's Going On In Rome

MUSIC

TEATRO DELL'OPERA — Opera season: Cycle of "The Ring of Nibelungs," by Wagner; Lovro von Matacic, conductor — "Siegfried," tonight at 8:30 . . . "Die Walküre," tomorrow afternoon at 4:30.

THIS BEAST LIKES ITS BURDEN—Blonde actress Jayne Mansfield takes her first ride on newest addition at the Mansfield estate in Hollywood, Calif. Now occupying the pink palace and three acres are one blonde, one ex-Mr Universe, three children, nine dogs, two monkeys and the new burro. "We don't keep her in the house," Jayne explained to newsmen. Husband, Mickey (ex-Mr Universe) Hargitay, bought the burro, 5-month-old Gracie, because the household lost another pet, a bulldog. *(AP photo)*

Nixon Joins Law Firm, Plans To 'Work Up'

LOS ANGELES, March 14 (AP) — Former Vice President Richard M. Nixon yesterday joined a leading Los Angeles law firm — Adams, Duque and Hazeltine.

The company announced:

"The firm is pleased to announce that Richard M Nixon, former Vice President, has this day become counsel to the firm."

The announcement came after speculation the ex-Vice President, beaten for the presidency last November by John F. Kennedy, might take a university post or engage in active politics.

Over the weekend, Nixon played down his political ambitions. In Sacramento he told a press conference:

"I am not a candidate for governor. I have no intention to be a candidate or institute a draft."

"Our feeling, which is shared by Mr Nixon, is that this will work into a partnership at the appropriate time," Henry Duque told a reporter.

RICHARD NIXON
...back to law

Nixon steps into a company which has nine partners and 20 attorneys.

"He feels, and we feel, since he just stepped out of public life, it is better for him to come into the firm on an out-counsel basis rather than a partner, so as to avoid any conflict of interest that might arise," Duque said.

As an out-counsel, Duque said, Nixon will be part of the organization, advise and consult with the partners and participate in the firm's legal business. Unlike the partners, Duque said, Nixon will have no financial interest.

Details of other financial arrangements were not announced.

Duque said the company's practice includes all phases of civil and corporate practice, such as handling of financial business for corporations and individuals, dealing with tax problems, probating estates and estate planning.

Does Nagging Wife Cause Loss Of Life?

LONDON, March 14 (UPI) — Transport Minister Ernest Marples yesterday suggested that husband-wife tiffs may be responsible for road accidents.

Marples said he was making a motivation psychology study of what makes a motorist tick and why his behavior suddenly alters. One moment, he said, a driver could be very placid and the next "like a raging lunatic. Maybe it is caused by wife trouble."

GI's Get Military Jobs--Of All Things

WASHINGTON, March 14 (UPI) —The Defense Department says it has pulled 600 GI's off grocery bagging details and assigned them to military jobs. It promised to transfer 1,500 more men from commissary duties during the year.

Assistant Defense Secretary Carlisle P. Runge gave the report to Rep. Frank Kowalski, (D., Conn.), the ex-Army colonel who thinks enlisted men ought not to be used as grocery clerks, servants or in other non-military chores. Kowalski, disclosing Runge's report, said he was "extremely gratified."

What's Going On In Rome

MUSIC

TEATRO DELL'OPERA — Opera season: "Uno Sguardo dal Ponte" (A View from the Bridge), from Arthur Miller's play, by Renzo Rossellini; Oliviero De Fabritiis, conductor; tonight at 9.
